Serial No. 5

BRIEF ABSTRACT OF LETTER.

Solicits sanction to ^{the} opening of two more Rain-gauge Stations at Saragan and Hampapur in the Hegga-dasevanakote taluk, Mysore District.

NOTES AND ORDERS.

Submitted for orders. It can be seen from the sketch submitted by the Chief Observer that a Rain-gauge station at Antarasanki seems unnecessary as there are stations at Kakankote and Heggadasevanakote ^{not far from} ~~so near~~ on either side of it. A draft G.O. is put up.

From

N. Venkatesa Iyengar, Esq., B.A.,

Chief Observer in charge,

Mysore Meteorological Department.

To

C.S. Balasundram Iyer, Esq., B.A.,

Offg. Secretary to the Government of

His Highness the Maharaja of Mysore,

General and Revenue Departments.

Dated Bangalore, the 4th June 1910.

Sir,

I have the honor to submit that the Deputy Commissioner, Mysore District, in his letter No.4043 dated the 23rd April 1910, proposes the opening of three more Rain Gauge Stations at Sargur, Hampapur and Antarsante in the Heggaddevankote Taluk. A reference to the annexed sketch map of the Taluk shows that a Rain Gauge at Antarsante is unnecessary situated as it is almost midway between Heggaddevankote and Kakankote and distant only about 5 miles either way. As Sargur and Hampapur are fairly representative of the parts of the Taluk in which they are situated I beg that Government may be pleased to accord early sanction to the opening of a Rain Gauge Station at each of these two places.

I have the honor to be,

Sir,

Your most obedient servant,

N. Venkatesa Iyengar

Chief Observer in charge,

Y.S.
